

Indigenous Decentralisation.

The children of our mother Earth are fooled and mass murdered through nuclear war systems that are enforcing a constant nuclear war economy (www.bsrrw.org, www.nuclearjustice.org). Gods children are hypnotised to work for Satans dollar (BIS.org money value is valueless dollar bill with Satans eye) establishing a death trap for all races and nations. You have woken up to do what still can be done to stop this planetary massacre conducted by Satan.

Indigenous person is of ancient ethnogenetical origin and has managed to preserve the culture that is part of the Devine Order of Love and is not engaged in Satanism rituals of drinking blood, eating flesh and any plans of direct or indirect murder, and never engages in wars.

Indigenous Decentralisation is managed by Indigenous person who is connected to the creator, is awake, loving, wise and devoted to protect the living and is a just judge (www.LoveOrder.info, www.nationalstate.info).

Devine rules are given to us by the Gods.

Baltic Sun Model expresses the 14 areas of our Devine rights and duties that are dual. I love and I am loved, I work for others and others work for me, I judge and others judge me... The circle of these rights is that You are not managed by any people who dont love You.

The tone of the 14 rays of Baltic Sun Model:

0. I love me, my family, my kin, my tribe, my people, my nation, my race, other races, the raceless, my continent, my planet, my univerce

The practical administration of systemic nuclear war crimes of state and church is following. Such crimes are of genocidal and democidal magnitudes and originate in ancient method to eliminate indigenous people to privatise their lands and hypnotise them into slavery through education. Any country consists of lands of indigenous people and has legitimate rights to exist only if it is governed by its indigenous people.

So You have to restore the Indigenous governance of any pyramidal structure, state or corporation as the structure is illegitimate. This has to be done transparently providing information to everybody. All stock markets that have absorbed the state companies have to restore the ownership of any stock to the indigenous people it originates from or the corporations are to be dismantled into units governed by indigenous people. Of primery importance here are the structures of any state, any church, any school, any prison, any media, any bank, any ensurance company, any police office, any court, any work enforcement operation, any mine, any military object, any institute, any super market, any hospital, any plant etc.

To manage the tasks above mentioned You may find usefull reestablishing Your own Indigenous Courts and issuing Your own Indigenous money. The easy way is to proclaim Yourself as a citisen of Godland and accept the Indigenous court decissions of Godland and use Baltic Indigenous Runes as money for Your large investments as a quadrillion of BIR is emitted already (www.bsrrw.org www.LoveOrder.info). You create Your own Indigenous coupone system for redistribution of local goods and You create Indigenous security service.

Know Your Rights – Declaration on the Rights of Indigenous People signed by most countries 13-09-2007.
