Common Law Corporation Indigenous Decentralisation Warrant.

Issued under the authority of the divine law grand jury investigation into genocide of indigenous and all people through matrix of nuclear war systems.

The World's future has been stolen by sick and alien psychopath dynasties that worship Satan fooling and mass murdering people through a net of centralised corporations of war economy.

This Warrant empowers the bearer to decentralise any organisation that is known to have harmed or violated indigenous people of any region through the web of nuclear war systems. If any spirited person proclaims Indigenous Decentralisation of a corporation, that corporation has to be registered by any state as a split property of the kins of indigenous people affected by it. Decree & Summary - on the Organized Disappearance, Torture, Exploitation and Murder of Women, Children and Men of the World through Corporations of Criminal Nuclear War Systems.

11.01.2017.

Matter & Decree

1. An organized system of abduction, exploitation, torture, exile and murder of large numbers of women, men and children by nuclear war systems appears to exist on Mother Earth, and is operated by corporations. It involves any state police department, any state judiciary, any state government and any federal government, including their military. Nuclear War Systems (NWS) consist of automated and corporate administration including military industrial complex, churches, laws, courts and prisons, finance and banking, labor market, food and water industry, health insurance, Pharma, land ownership, housing ownership, media, communications, energy industries, technology, education and life care corporations.
2. This system is highly funded and linked to criminal organizations of Satanist cannibalism in various churches, and foreign mobsters from Russia, UK, Netherlands, Rome, Israel, China, Switzerland and the USA etc., who through central banks steal the money from the nations to invest it in genocidal corporations obsessed with Satanism and imposing apocalyptic nuclear war systems on the world. It is funded in part by a massive drug trade and child trafficking, with which it is intimately connected.
3. This cannibal system is crusader-centuries-old and has been supplied with women, men and children of aboriginal origin with the paid collusion of lawyers, clergy and officials of Roman Catholic and other Christian churches, and Islamic Mosques, Jewish Synagogues, and any other churches of the world, along with state-funded aboriginal leaders and officials of any of state government departments, where states are not governed by the indigenous people but are in the net of an automated and in the end suicidal mega corporation filled with people programmed into merchants-biorobots that are systemically murdering the aboriginal people (physically or by identity loss) and expropriating their lands, their homes, any of their resources and even their children.
4. These nuclear war systems are international in scope, any land being one spoke in a wheel of pedophilia, sex slavery, human organ black markets and violent child pornography, expropriation of land and property, corporate slavery markets, contamination of land, air and water, torture by poverty and disease, and corporate education that through psychiatric distress turns people into bio-roboted slaves.
5. The agreement at Holyrood Castle in Edinburgh, on September 16 2010, was made by Pope Benedict and Queen Elizabeth who adopted the notorious law for the absorption of the Anglican church back into the Church of Rome. It compels all Anglican clergy to subvert the laws of their own countries by protecting child rapists in their ranks, silencing victims and not telling the police of the crime. Pope Benedict resigned on February 11, 2013, followed in August by the equally unexpected resignation of Vatican Secretary of State Cardinal Tarcisio Bertone, who helped to broker the Holyrood Agreement.
6. These nuclear war systems rely upon a network of complicity extending to the highest levels of power in all occupied nations, involving coroners, judges, doctors, clergy, politicians and social workers, as well as the media. It also relies upon a network of "body dumping grounds" and mass graves, located in cemeteries of rural areas of any church and Crown land, where human remains are regularly disposed of by official officers due to poverty, loneliness and disease of the victims of the dysfunctional, divine order-forgotten society.

7. These nuclear war systems are kept in place because of a practice and philosophy of unofficial tolerance and protection by the established police, judicial, military, church and governmental institutions in the states and communities. The crimes committed by individual officers of the police, churches, court and government against women, men and children caught in this Satanic nuclear war system are well known and tolerated by the institutions that are guilty of the crime of pretending to be representatives of a state where power belongs to the people, when in fact it belongs to the Federal Reserve Bank (FRB) owners who have a racist agenda of eliminating the races and taking over the whole planet.

8. The Federal Reserve Bank owners are guilty of imposing war economy on the populations of the whole world and contaminating the planet with genetical mutation-causing substances – mass murdering all living systems. The source of peoples' food chain and life style – millions of years old, common seas and rivers and lands have been contaminated by the FRB war projects through corporations, and many of them will be poisonous until the end of times now. The question of safe disposal of the mountains of nuclear waste is the question of life on Earth.

9. That is why the Federal Reserve Bank and its corporations (<http://www.truthmove.org/tmp/chart1.png> , http://flak.dotq.org/skitch/Anonymous_flowchart-20080329-130648.png) that hold a genocidal grip over societies of the world have been criminalised by the Baltic Sea Indigenous Peoples Court (bsrrw.org, labie.lv, nuclearjustice.org). All the corporate nuclear war systems are ordered to be reorganized into environment friendly units that are managed by loving and spirited indigenous people of each territory in direct contact with Divine Leaders – Love Gods.

10. War as such and all Nuclear War Systems are criminalized and You have to get out of the nuclear war economy systems that are all driven by the black magic US Dollar currencies that have to be replaced by real money that is controlled by the people themselves in local communities. For that You may start Your own coupon societies to share the resources and the fruit of Your work with everybody in your community, prioritizing cultural expansion of the native people who have authority from above and know how to establish a Divine Order of Love.

11. You have to Sign a Binding Contract to manage the split of the corporations of the matrix of Criminal Nuclear War Systems into safe systems of decentralised units governed by local indigenous people, or You leave with life-long Indigenous Decentralisation salary, but no right to manage.

12. If You don't follow these Decrees You will be guilty of Crimes against Humanity and all Living Systems of Mother Earth and You will be charged of Crimes of Apocalyptic Genocide. If justice fails the direct effect of Your crimes will be the End of Times as the Gods may decide that this mankind is not worthy to exist as You are easily turned into suicidal bio-robots, slaves of Satan.

13. The rights of indigenous people and the common law rights of all people are the main core of the salvation where improvements of wealth shall be provided to anyone in need.

*May the Gods be with us in our work to restore the
Divine systems of Love, Peace and Understanding*
